INDICATED WHEAT PRODUCTION BY CROP REPORTING DISTRICTS, 1941

To supply information which can be utilized in facilitating the orderly movement of the 1941 wheat crop, the Crop Reporting Board has compiled the following estimates of 1941 wheat production by Districts in 18 of the most important wheat-producing States. For each State, the District estimates total to the official State figures published in the General Crop Report on August 11, 1941. For the purpose of comparison, estimates of production by Districts are shown for 1939 and 1940.
